

Laboratory Manager
Chemistry and Biochemistry

The Department of Chemistry and Biochemistry at the University of Delaware seeks a Laboratory Manager to oversee analytical and physical chemistry teaching laboratories. The Laboratory Manager, along with other support staff under his/her supervision, assists the course instructors of record by designing and implementing laboratory curricula, assembling laboratory manuals, preparing/maintaining materials and equipment used in the laboratories, supervising and mentoring teaching assistants, and ensuring safe practices within the teaching laboratories. For more detailed information, or to apply, visit www.udel.edu/udjobs and submit a one-page cover letter and your resume as one document. In addition, arrange for three letters of recommendation to be sent to Mrs. Cheadle at: sheadle@udel.edu. Review of applications will begin January 15, 2017 and continue until the position is filled. This position requires a Master's degree in Chemistry with 4-5 years laboratory supervision experience. A Ph.D. in Chemistry is preferred.

Employment offers will be conditioned upon successful completion of a criminal background check. A conviction will not necessarily exclude you from employment.

The University of Delaware is an equal opportunity/affirmative action employer and Title IX institution. For the University's complete non-discrimination statement, please visit <http://www.udel.edu/home/legal-notices/>
